

H-SERIES, J-SERIES, V-SERIES

Wind Baffles

Protect Your Investment

Wind Baffles ensure continued operation during high wind conditions, especially with roof-mounted units. Wind Baffles prevent nuisance stoppage of outdoor unit, if wind gusts reverse fan rotation while the fan motor is off.

Features

- Solid & sturdy design for durability and reduced vibrations
- Same color as outdoor air unit for better aesthetics
- Easy installation
- These accessory model numbers are for R-32 product

R-32

Outdoor units sold separately.
